

Dear Hiring Manager,

I am writing to apply for the **Junior Software Developer** position at WorldLink Communications. With one year of professional software development experience and a Bachelor's degree in Information Technology, I am excited about the opportunity to contribute to your development team.

In my current role as a Software Developer at Thakur International, and previously at Vrit Technologies and Brahmabytes Lab, I have built scalable web applications, REST APIs, and backend systems using Python, SQL, and modern development practices. I have experience working with MySQL, PostgreSQL, Git, and cross-functional teams, and I am confident in my ability to quickly adapt to PHP and Laravel while contributing effectively from day one.

I am passionate about writing clean, maintainable code, solving real-world problems, and continuously learning new technologies. I would welcome the opportunity to contribute my technical skills and enthusiasm to WorldLink.

Thank you for your time and consideration. I look forward to the opportunity to discuss how I can contribute to your team.

Sincerely,
Kabin Ghimire
